LINDSTRÖM

2A-SA-SL

Stainless Steel Anti-Magnetic Precision Twezers with Straight, Fine, Round, and Flat 120 mm Tips

PRODUCT DETAILS

- Lindström SL (service level) tweezers for use in production, assembly and field service kits
- Swiss quality at lower cost for applications that do not require the highest precision
- Anti-acid, anti-magnetic stainless steel same as our other tweezers
- ESD safe properties for use in sensitive environments
- Matt finish for reduction of glare in intensely lit environments
